

BYOM

SPEECHI BYOM SOLUTION FOR PRESENTATION AND VIDEO CONFERENCING

Ref.: SPE-BYOM-PRO

This wireless BYOM* solution offers a complete collaborative experience for users. It allows you to connect the interactive screen and all the audiovisual equipment in the room to your device to share your screen and conduct video conferences:

- Connection to audiovisual equipment (camera, microphone, speakers) to start your video conferences from your device
- Up to 9 simultaneous connections on a single interactive screen
- Retrieval of touch to interact on a giant screen
- Plug and Play, the transmitter is connected to your device without the need for prior software installation
- 4K resolution images with latency-free transmission of your files (documents, images, videos)
- High stability and compatibility with all your devices (computer, tablet, smartphone) and with your video conferencing solutions

The BYOM Pro solution includes 1 transmitter and 1 receiver (transmitter also sold separately).

*BYOM = “Bring Your Own Meeting”
